

Agricultural policy positions of the associations

Task:

Develop a discussion strategy for a talk show on the topic of "agricultural policy and species protection" in which you represent your organization. It is important that you are proficient in both German and English, so that you can participate in the talk show in both languages, depending on what the moderator decides! Use the materials linked below to find out about your organizations' agricultural policy positions. Each group has to read two introductory texts:

1. You can find an introductory article by the Deutsche Welle [here](#) in German and [here](#) in English (Cwienk 2020; Cwienk 2020a).
2. You can find a communication of the European Council [here](#) in German and [here](#) in English. You can also choose different languages on the homepage.
